

HEALTHY CHOICES

This suppliers list has been developed to assist individuals/clubs/workplaces in locating local suppliers that offer GREEN and AMBER drink options.

The Healthy Choices Guidelines¹ use a traffic light system to classify food and drinks based on their nutritional value, in line with Australian Dietary Guidelines² recommendations. This simplifies the process of offering and choosing healthy food and drink options by classifying items as:

GREEN - Best Choice | **AMBER - Choose Carefully** | **RED - Limit**

The Healthy Choices guidelines for drinks

GREEN BEST CHOICES	AMBER CHOOSE CAREFULLY	RED LIMIT
Water (tap, still, sparkling, soda)	Full-fat plain milk	Soft drinks Sports and energy drinks Cordials
Flavoured water with natural essence (no added sugar)	Flavoured milk, medium size (350-500ml)	Flavoured iced teas, waters and mineral waters (with added sugar)
Reduced-fat plain milk	Diet/artificially sweetened drinks including soft drinks, iced teas, sports drinks	Fruit drinks
Reduced-fat flavoured milk, small (up to 300ml)	Diet/artificially sweetened energy drinks (250ml or less)	Fruit juices (with added sugar or over 250ml)
Tea/coffee (no added sugar)	Fruit juices (>99% juice, no added sugar, 250ml or less)	Flavoured milk, large (500ml or more)
	Coconut water (no added sugar, >99% coconut water, up to 300kj/bottle)	Coconut water (with added sugar or over 300kj/bottle)
